NATURE BACKERS FOR WOMEN'S SPORTS

Turning women's sports into fan-powered sustainability experiences

TEAM: **Nature Backers**

BILLIONS FLOW TO SUSTAINABILITY, BUT THE SPORTS FANS ARE LEFT IN THE DARK

SPONSORS

Growing Budgets: Billions spent on corporate sponsorships and sustainability initiatives.

PROJECTS

Verified Impact: Funding reaches environmental registries and marketplaces.

FANS

Invisible Commitments: Fans rarely see or engage with sustainability efforts during live events and are disconnected from the real impact.

WOMEN'S SPORTS: THE IDEAL PLATFORM FOR COLLECTIVE ACTION

$2.35B+ RAPID GROWTH (2025)

With audiences among the fastest-growing fan communities globally

HIGH FAN ENGAGEMENT

Fans of women's sports show significantly higher levels of brand loyalty and social consciousness.

NATURAL ALIGNMENT

Provides a perfect sandbox for collective environmental action.

NATURE BACKERS:

Real-time connection between sponsors, fans and verified environmental projects

SPONSORS — **FANS** — **PROJECTS**

Routes sponsor capital through the fans in real-time.

Fan-powered sustainability experiences built on the speed and trust of the Hedera network.

FLAG FOOTBALL GAME NIGHT: Unlocking a $5,000 impact pool

$5,000

($100,000 Season Commitment)

LOCATION

San Francisco
Women's Flag Football Game Night
500 Fans

THE SPONSOR

Acme Sports Drinks Co.
Objective: Drive brand loyalty through impact.

THE STAKES

Sustainability Pool.

A FRICTIONLESS MOBILE JOURNEY:

Simple for fans, accountable for sponsors, transparent to the public

1. Scan

Fans scan a QR code from campaign email or game night.

2. Choose

Explore 3 sponsor-curated nature projects.

3. Allocate

Back a specific project to direct the unlocked funds.

4. Prove & Reward

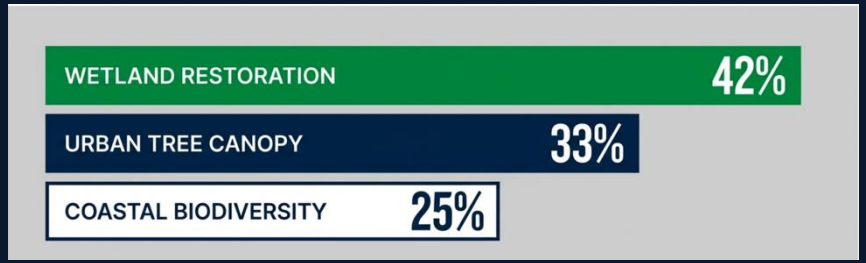
Results are recorded on Hedera; fans receive a digital participation token.

FAN PARTICIPATION TRIGGERS REAL-WORLD IMPACT

Funding unlocks only when fan participation thresholds are reached

Kickoff	Halftime	Final Whistle
30%	60%	100%
Unlocks at 50 votes $1,250 Unlocked	Unlocks at 120 votes $3,000 Unlocked	Unlocks at 200 votes $5,000 Fully Unlocked & Allocated

Funding allocated based on fans backing preferences



BUILT ON HEDERA: MAPPING ACTION TO IMMUTABLE CONSENSUS

Flag Football Game Night Experience	Hedera Infrastructure
Acme Sports Drinks Co curates 3 sustainability projects aligned to their objectives for fans to back during the game.	**Hedera Guardian/Global Indexer** Surfaces verified sustainability projects from the Guardian ecosystem on Mainnet for discovery and selection
During game moments, fans participate in influencing how sponsor funding is allocated.	**Hedera Consensus Service (HCS)** Records each participation event immutably, with Merkle root anchored via smart contract to enable verifiable allocation.
Fans receive proof of participation and can stay engaged beyond the game.	**Hedera Token Service (HTS)** Issues tokenized participation as “proof of impact” enabling ongoing engagement and rewards.

HACKATHON DELIVERABLES & LEARNINGS

From Employee Engagement to Fan-enabled Sustainability Experiences

What Changed

(Built on employee proof of concept)

- Employee → live fan engagement
- QR onboarding for events
- Guardian Indexer (Mainnet) integration (example local projects curated for demo)
- Real-time participation during game
- Tokenized engagement (HTS)

New Capabilities

(Fan Experiences)

- Concurrent fan participation
- Real-time funding influence
- Game-time engagement (kickoff → final)
- Mobile web (QR + email login in demo)
- On-chain verification (HCS)
- Live results dashboard

Learnings

- Participation helps to drive engagement
- Email login adds friction in live events (hackathon ready)
- 3 test users validate funding logic; will need scaling for live events
- Simpler UX will be needed

As Guardian APIs and business-facing tools mature, Nature Backers can simplify integration and scale real-time participation across women's sports.

NATURE BACKERS: LOOKING FORWARD

AI-Powered Experiences

AI-driven sustainability explainers, recommendations, and personalized fan journeys.

Sustainability Intelligence

Expanded Guardian integration with richer project data, SDG mapping, and real-world impact tracking.

Tokenization Layer

Participation tokens evolving into programmable assets for rewards, access, and verified engagement.

Stablecoin Funding Flows

Real-time allocation of sponsor funds to projects using stablecoins for transparency and speed.

Turning women’s sports into fan-powered sustainability experiences

THE HEDERA ADVANTAGE

Real-world users + engagement on Hedera.

MASS ACCOUNT CREATION

Fan actions → new Hedera users.

HIGH TRANSACTION VOLUME

Live events drive HCS + HTS at scale.

MAINSTREAM EXPOSURE

Sports fans + sponsors = mainstream adoption.

Fans → to sustainability participants → to on-chain impact

FROM PASSIVE SPONSORSHIP TO GLOBAL PARTICIPATION
